A1,

Per our telephone discussion I will plan to come by your building after the 1030A meeting this morning with (b) (6).

This will work out perfect as I've been tasked to provide detailed photos and topographical analysis of the proposed site area due to the significant cost in site prep required. Your input will be invaluable in establishing a baseline to support cost estimates and required construction funding and schedule timeline to meet the anticipated IOC/FOC dates.

I look forward to discussing all.

v/r
